PROFILE

I love developing applications! I find so much joy when I build something I have dreamed of. By utilizing my problem solving, creative, and design skills I am able to create unique experiences for all my users.

EDUCATION

NASHVILLE SOFTWARE SCHOOL
FULLSTACK WEB DEVELOPMENT

THE UNIVERSITY OF TENNESSEE
M.S. EDUCATION & THEORY
B.A. ENGLISH

PROJECTS

CREATE BEAUTY- REACT

Create beauty is a web application that allows users to log their makeup looks, rate, and share their new creations with others! When a user logs into my application they'll be able to upload and view all of their makeup looks, the products used, and the makeup routine. Also, users will be able to rate and filter through their makeup looks. The technologies I used are React, Firebase, Javascript, and Bootstrap.

PARDON US - JAVASCRIPT

Pardon Us is a web application that my group members and I built for a rock band called Pardon Us. As the team lead, I was responsible for guiding my colleagues as we complete this project. I aided in developing and implementing a timeline for the team to use to reach its end goal. Also, I created the ABOUT page on our website, where a user will be able to learn about the band, read each members profile, and contact them if desired. The technologies I used were Javascript, HTML, and Bootstrap.

EXPERIENCE

FULLSTACK SOFTWARE DEVELOPER
NASHVILLE SOFTWARE SCHOOL - PRESENT

- Built single page apps using HTML, CSS, JAVASCRIPT, BOOTSTRAP, JQUERY, AND SASS
- Designed and deployed CRUD applications
- Build applications using React, Firebase Storage and Functions, and Routing
- Testing and debugging code using React developer tools

INSTRUCTIONAL DESIGNER
NAVIEHALTH | OCTOBER 2019 - PRESENT

- Designed and develop engaging instructor led and e-learning experiences for clinical, corporate, external client, IT, and product developer audiences utilizing ADDIE and agile methodologies.
- Built and deploy courses, programs, and tests using the LMS and other online course authoring
- Proficient with Camtasia, Articulate Storyline, and Microsoft Office

CORPORATE TRAINER
ADVANCE FINANCIAL | JUNE 2018 - OCTOBER 2019

- Worked closely with instructional designer and learning management systems to design e-learning modules
- Trained over 1300 personnel and new hires
- Collaborated with management to identify learning objectives, content development, and delivery of proposed training
